The lumiTab offers an amazing tablet experience with extraordinary features. It is the World's First Android Tablet with In-built Projector. Sharing multimedia has never been easier. With lumiTab, you can enjoy interactive games, process important documents, read e-books with your family, make presentations, mirror and control your laptop PC, listen to music or even play videos or movies. This all comes with the freedom of showing everything in wide screen, by using its one button projection system. All you have to do is just point the lumiTab to any plain open space or a wall and view your tablet screen on a bigger display. Perfect for wide scale viewing, Powered with Dual core processor which supports the latest Android 4.2 platform (Jelly Bean), with evolved UI and innovative projection quality. The advanced DLP technology delivers an incredibly sharp 1080p HD image. Slim and fast, the lumiTab is equipped with full Google Mobile apps and services such as Gmail, Google Maps, Google Talk, Google Search and Youtube. The lumiTab is truly a remarkable breakthrough tablet.

Pico Projection:	• Display Technique: DLP
	• Resolution: WVGA (854x480)
